National Informatics Centre, Himachal Pradesh

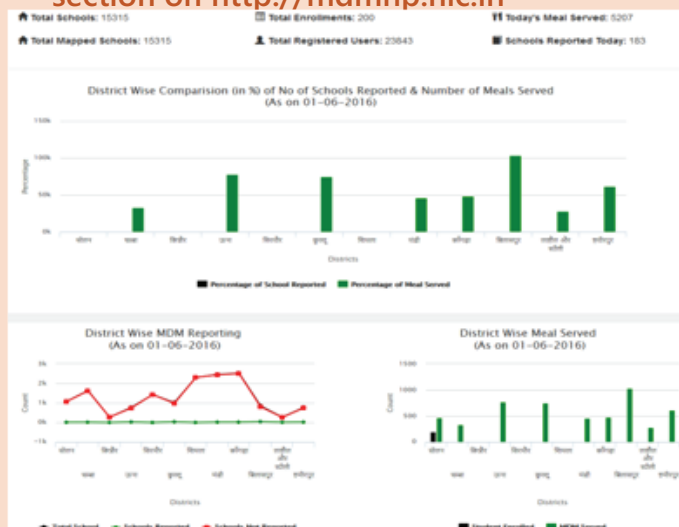

**Objective:** Instant reporting of meals served in various schools of the State/Country through different communication modes

With a view to enhance the enrolment, retention and attendance and simultaneously improve the nutritional levels among children, the National Programme of Nutritional Support to Primary Education (NP-NSPE) was launched as a Centrally Sponsored Scheme on 15th August 1995. The scheme underwent many changes over the years and is now known as "National Programme of Mid Day Meal in Schools". Over 10 crore eligible school children in almost 11 lakh schools benefit from the Scheme. In order to efficiently manage the enrolment and meals being served in the Schools of various States, the MDM-ARMS software has been developed as a product so that any State Education Department can use it. The data collected will be reflected on the National Portal on daily basis.

- Easy on-boarding for States:
- Data collection through SMS, Mobile App, Web
- Facilitates checks on the quality of data
- Generate Auto-alerts to ensure that all data is reported
- Web-based software for creation & management of Master data
- Exception reporting in case of erroneous data reporting
- Inspection reporting for cross checking of reported data
- Graphical dashboard, GIS enabled
- State Instances available
- Data transfer to National portal in pre-defined formats

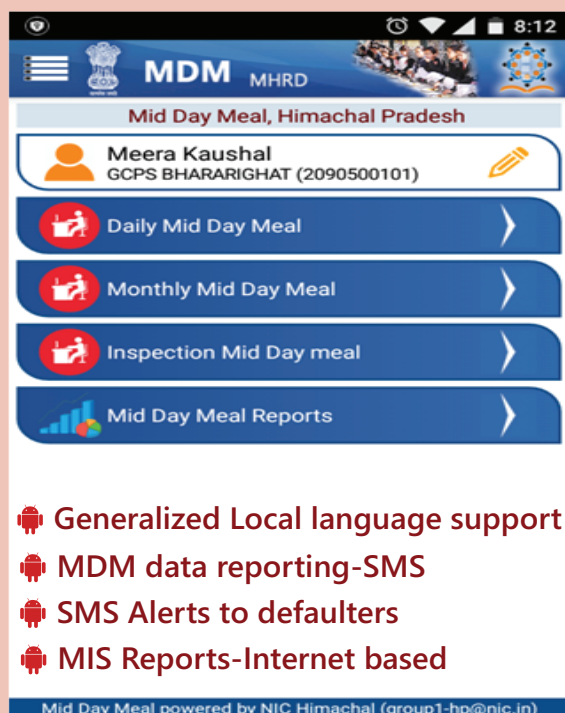

Please read "Pre-requisites" under FAQs section on <http://mdmhp.nic.in>

## Technology

- Cloud Hosted at <http://mdmhp.nic.in>
- Developed as a product,
- Multi-lingual
- Cyber security audited
- SQL Server 2012 and .NET MVC technology
- Easy on-boarding for States/ Master data
- NIC SMS Gateway costing through NICSI
- Android based Mobile App
- Postgres 9.1 database with PostGIS

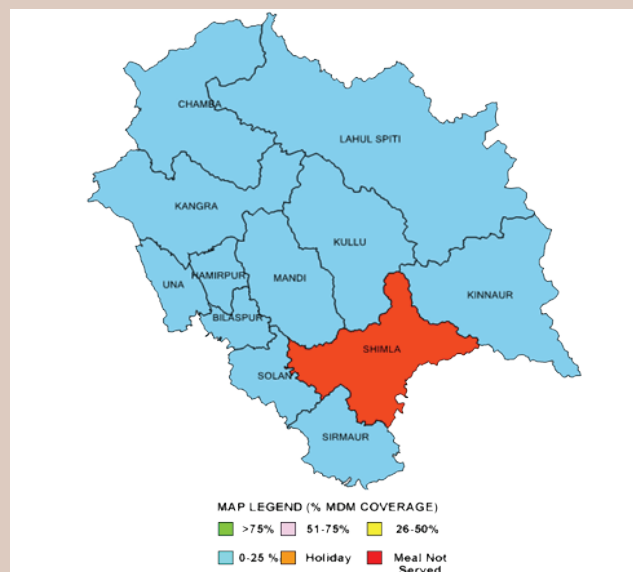

- Generalized Local language support
- MDM data reporting-SMS
- SMS Alerts to defaulters
- MIS Reports-Internet based

Mid Day Meal powered by NIC Himachal (group1-hp@nic.in)

## GIS-Visual Maps

- School/ Date wise meal served GIS maps within a District
- Search nearby school within a given radius of reference school along with its distance
